

Diego Abreu

ET - 710

4/3/19

Professor. Nystrom

Hello this is Diego from the recent interview thank you for the time we had discussing about the job and all the details that we went over.

I forgot to mention that I am very skillful in adobe programs such as Adobe Illustrator, Photoshop, After Effects, and InDesign. I had many years using Illustrator and Photoshop specifically creating complex designs with Illustrator and modifying images with Photoshop.

I look forward to continue speaking in the future.

Sincerely,

Diego Abreu
